Professor Alexandros Tselepis
President
Institute for the Study and Education on Thrombosis and Antithrombotic Therapy
23 Meandrou Str., 11528
Athens, Greece

Dear Professor Tselepis,

Thank you for sharing information about the Institute for the Study and Education on Thrombosis and Antithrombotic Therapy (ISETAT). On behalf of the Council of the International Society on Thrombosis and Haemostasis (ISTH), we would like to thank you for your interest in connecting and partnering with the ISTH. We truly appreciate your personal loyalty to our society and your interest for such a formal linkage.

We also applaud your and your colleagues' commitment to elevating the level of science and patient care by pursuing knowledge sharing, experience, and practice standards and/or guidelines to standardize and improve practical and actionable knowledge translation for thrombotic disorders in your country.

As such, we would like to express ISTH's support of ISETAT and thank you for seeking official relations with our organization. This letter serves to confirm our acceptance of ISETAT as a related society of the ISTH. While the ISTH does not offer a formal affiliation structure, we welcome the opportunity to collaborate with you on future knowledge sharing endeavors as appropriate. We also appreciate your support of World Thrombosis Day and look forward to a continued collaboration in regard to that campaign.

Again, we thank you for your interest and support. We are pleased to recognize ISETAT as a related society of the ISTH and look forward to continuing a strong and collaborative relationship.

Sincerely,

Nigel S. Key MB ChB FRCP
Chairman of Council
International Society on Thrombosis and Haemostasis
